

IN THE CLAIMS:

---

1. (Amended) A synthetic-grass cover structure comprising:

- a sheet substrate with a plurality of filiform formations that extend from the substrate to simulate natural grass cover; and
- a particulate filling material or infill dispersed between said filiform formations in such a way as to maintain the latter in a substantially upright condition,

wherein said particulate infill consists of a substantially homogeneous mass of a granular material chosen from the group consisting of materials comprising polyolefin and materials comprising vinyl-polymer.

---

13. (Amended) A particulate filling material or infill for synthetic-grass covers, said infill being dispersible between the filiform formations simulating the grass cover in such a way as to maintain the filiform formations themselves in a substantially upright condition,

wherein said particulate infill consists of a substantially homogeneous mass of a granular material chosen from the group consisting of materials comprising polyolefin and materials comprising vinyl-polymer.
